

Map API comparisons

Google Maps

Pros	Cons
Has street maps available	Battery draining
Commonly used	Rendering takes long
First \$200 per month is free	Not open sourced

Mapbox

Pros	Cons
Visually appealing	Usually used for very large projects
Free for up to 25,000 mobile users	Might be difficult to learn
Offline Mode available	
Open Sourced	

TomTom Maps

Pros	Cons
Pay as You grow	TomTom API has slow development compared with competitors
Offline Mode available	
Visually appealing	

MapKit

Pros	Cons
Free	Not a lot of data available
Used well for smaller projects	
Easier integration than other APIs
